

Reference for Dr. Giulio Cortesi

March 19, 2023.

To whom it may concern

I am pleased to provide a reference for Dr. Cortesi, whom I have known as Director of the MIEX programme at ICN Business School, in which he taught. Dr. Cortesi stepped in to teach International Business Law in order to supply the absence of the course leader at the time. He managed in very short time to prepare and deliver the course at very good and satisfactory standard. He showed flexibility, availability and continuous commitment towards the students, the admin office and the accreditation team on grading and Assurance of Learning matters.

Dr. Cortesi holds a PhD on state enterprises in investment arbitration and WTO dispute settlement system, and more importantly up to date professional experiences in France and Luxembourg. He also has teaching experience and publication record that made him qualified to teach at ICN Business School. I can therefore attest to his ability as an academic.

It has been a particular advantage that Dr. Cortesi has an international profile combined with considerable knowledge of the legal environment, which makes his profile attractive. His linguistic skills means that he is able to work within an international context and communicate in English, Italian, and French.

I thoroughly recommend and seriously support any application to you from Dr. Cortesi.

Dr. Kamel MNISRI

Director of the MSc in International Management – MIEX
